Disclaimer

The flood hazard insurance rate, maps and other flood data used by the County Building Official in evaluating flood hazards to proposed developments are considered reasonable and accurate for regulatory purposes and are based on the best available scientific and engineering data. On rare occasion's greater floods can and will occur, flood heights may be increased by man-made or natural causes. This statement does not imply that developments outside the identified area of special flood hazard will be free from flooding or flood damage. Issuance of this statement shall not create liability on the part of Colorado County, the County Building Official or any officer or employee of Colorado County in the event flooding of flood damage does occur.

It is the property owner's responsibility to have 911 sign posted visible at entrance.

No construction can begin without a development permit; a septic permit is required for all septic installation or repairs.

If you are required to have a private road sign, owner is responsible for maintaining sign at all times.

Signature below acknowledges the information provided is correct, owner is aware of the flood hazards and other responsibilities.

Colorado County **On-Site Sewage Facility Application (OSSF)**

Signature below acknowledges all the information provided is correct, owner is aware of the flood hazards and other responsibilities.

I authorize Colorado County, Texas and Texas Commission on Environmental Quality and their agents to enter the described property during daylight hours to inspect the On-Site Sewage Facilities, for any reason consistent with the water quality program of the Texas Natural Resource Conservation Commission. A permit to operate the OSSF will be granted following a successful inspection of the installed system, which indicates that they system was installed in compliance with TCEQ rules for an OSSF, TAC30, Chapter 285.

AFFIDAVIT TO BE FILED WITH THE COLORADO COUNTY CLERK'S OFFICE

THE COUNTY OF COLORADO
STATE OF TEXAS

AFFIDAVIT

According to Texas Commission on Environmental Quality Rules for On-Site Sewage Facilities (OSSF's), this document is filed in the Official Records of Colorado County, Texas.

The Texas Health and Safety Code, Chapter 366 authorizes the Texas Commission on Environmental Quality (TCEQ), to regulate on-site sewage facilities (OSSF's). The Texas Water Code (TWC), §5.012 and §5.013, gives the commission primary responsibility for implementing the laws of the State Of Texas relating to water and adopting rules necessary to carry out its powers and duties under the TWC. The commission, under the authority of the TWC and the Texas Health and Safety Code, requires owners to provide notice to the public that certain types of OSSF's are located on specific pieces of property. To achieve this notice, the commission requires a recorded affidavit. The owner must provide proof of the recording the OSSF's permitting authority. This recorded affidavit is not a representation or warranty by the commission of the suitability of this OSSF's nor does it constitute any guarantee by the commission that the appropriate OSSF's was installed.

II

An OSSF's requiring a maintenance contract, according to 30 Texas Administrative Code §285.91 (12) will be installed on the property described as _____

This property is owned by _____

This OSSF's shall be covered by a continuous service policy for the first two years. After initial two year service policy, the owner of the aerobic treatment system for a single family residence shall either obtain a maintenance contract within 30 days or maintain the system personally.

Upon sale or transfer of the above described property, the permit for the OSSF's shall be transferred to the buyer or new owner. A copy of the planning materials for the OSSF's may be obtained from the Colorado County Permit Office 305 Radio Lane Columbus, Texas 78934.

(800) 841-3447- Fax (361) 771-3452

Installation Contract

Installation Prices: Include appropriate trash and pump tank sizes.

- ___ 600 gpd Norweco Aerobic Unit
- ___ 750 gpd Norweco Aerobic Unit
- ___ 1000 gpd Norweco Aerobic Unit
- ___ 1500 gpd Norweco Aerobic Unit

Site evaluation / Design / Permit: Total _____ (Good for 60 days)

- **This is a dry bid only.** In the event the job site is not accessible due to the weather conditions, there will be an additional charge to mud the system in (either use of track hoe to dig and set tanks or use of mats to drive truck in). Additional amount charged is subject to severity of location.
- The above prices are based on the home having one stub out and the tanks being located within 15' of the stub out. If there is more than one stub out, there will be an additional charge per stub out to connect the pipe. In the event of multiple stub outs and the stub out being positioned such as to require the installation of a lift station, there will be additional charges.
- An additional charge of \$250.00 for Risers will be added if stub outs are more than 24"
- **Owner's electrician is responsible for bringing 30amp 110 circuit (for 600 gpd only) within 5' of stub out.** Hurt's will provide 15' of electrical, however extra wire and conduit will be an additional charge.
- **Excess dirt will be left stockpiled on job site.**
- **Hurt's will not be responsible for damaging any unmarked underground lines.**
- **Homeowner or Builder** is responsible for water supply to fill tanks, as well as the removal and/or replacement of fences or structures.
- **Hurt's not responsible for back filling around tanks after dirt settles.** One load of sand provided by Hurt's to be used for 4" pad under tanks and filling around 4" pipe from house.
- **Payment in full required day of installation. Contract is with Hurt's and homeowner. If payment is coming from the builder, the homeowner is responsible for making sure Hurt's receives that payment.**
Visa / MasterCard / accepted at Hurt's office only. If used, there will be an additional charge.
