## **Customer instructions for completing septic system paperwork.**

- 1 – County application. Fill out owner information
- 2 – Norweco Contract – Customer Signature and Date required
- 3 – Affidavit – Sign and print name of property owner.

NOTE: A copy of your property survey needs to be returned with papers (preferably a plot plan).

- 4 – Installation Contract – Read notes, sign and date.

NOTE: Duplicate copy is for your records

Please return all originals along with property survey to our office. The brochure is for your records.

If you have any questions or require additional information please feel free to call us anytime at 1-800-841-3447.

### CUSTOMER CHECKLIST:

- 1. Survey of Property or Plot Plan
  - 2. Tax Receipt or Deed for legal description and proof of ownership
  - 3. Well Log (if requested)
  - 4. Correct 911 Address (Required for Floodplain)
  - 5. Floodplain Signoff
- 

### **Below for office use only.**

Before the application is submitted to the D.R. the following is needed.

- 1. Survey of property.
- 2. Legal description is to be filled out on all paperwork.
- 3. Affidavit to the public filed in the county clerk's office
- 4. Well log.
- 5. Maintenance contract.
- 6. Check for permit.
- 7. Site Evaluation.
- 8. Engineered design
- 9. Proposal Sheet
- 10. Flood Plain Signoff.

This initial two year service contract for the Singulair Bio-Kinetic wastewater treatment system located at the site described above is intended to enable the owner to economically obtain regular service inspections for the Singulair unit, as well as non-scheduled or special service that may be required by a qualified technician. When this contract is in force, the owner will not be charged for any routine service labor. Under the terms of this service agreement, a technician will regularly inspect, test, and report the plant at four month intervals. The site will be visited following each special owner service request within a 48-hour period. The contract shall remain in effect for a period of two years, as specified in the effective and expiration dates listed above. All components of the Singulair unit are covered for a full two years warranty as determined by the dates above. The components include: concrete tanks, aerator, discharge pump, all electrical components installed as part of the system, filter / chlorination assembly, sprinkler heads, and piping. This service contract does not include the pipe from the structure to the tanks or any necessary sludge pumping that may need to occur. It shall also be understood that the homeowner is responsible for maintaining the chlorine in the system. A chlorine residual of at least 1.0 mg/L must be maintained in the treatment system. This can be accomplished by using chlorine (calcium hypochlorite) tablets. Swimming pool tablets must not be used in the aerobic system. All commercial systems will have a BOD and TSS test performed annually. Additional charges will be billed to the owner for the BOD and TSS test. The homeowner agrees to provide Hurt's Wastewater Management Ltd. with all gate combinations, keys, etc. to gain access to the system for the purpose of conducting routine inspections or service calls and to immediately notify with any changes and provide the new combinations or keys.

VIOLATION OF WARRANTY includes shutting off the electric current to the system for more than twenty-four hours, disconnecting the alarm system, restricting ventilation to the aerator, overloading the system above its rated capacity, or introducing excessive amounts of harmful matter into the system, or any other form of unusual abuse.

**AFFIDAVIT TO THE PUBLIC**

THE COUNTY OF \_\_\_\_\_  
STATE OF TEXAS

According to Texas Commission on Environmental Quality Rules for On-Site Sewage Facilities, this document is filed in the deed records of \_\_\_\_\_ County, Texas.

**I**

The Texas Health and Safety Code, Chapter 366 authorizes the Texas Commission on Environmental Quality (TCEQ) to regulate on-site sewage facilities (OSSFs). Additionally, the Texas Water Code (TWC), § 5.012 and § 5.013, gives the TCEQ primary responsibility for implementing the laws of the State of Texas relating to water and adopting rules necessary to carry out its powers and duties under the TWC. The TCEQ, under the authority of the TWC and the Texas Health and Safety Code, requires owner's to provide notice to the public that certain types of OSSFs are located on specific pieces of property. To achieve this notice, the TCEQ requires a deed recording. Additionally, the owner must provide proof of the recording to the OSSF permitting authority. This deed certification is not a representation or warranty by the TCEQ of the suitability of this OSSF, nor does it constitute any guarantee by the TCEQ that the appropriate OSSF was installed.

**II**

An OSSF meeting the requirements of 30 Texas Administrative Code §285 will be installed on the property described as: **(insert legal description):**

The property is owned by: **(insert owner's full name)**

This OSSF must be covered by a continuous maintenance contract. All maintenance on this OSSF must be performed by an approved provider and/or maintenance company, and a signed maintenance contract must be submitted to the \_\_\_\_\_ TCEQ within 30 days after the property has been transferred.

The owner will, upon any sale or transfer of the above-described property, request a transfer of the permit for the OSSF to the buyer or new owner. A copy of the planning materials for the OSSF can be obtained from the appropriate TCEQ Regional office.

**(800) 841-3447- Fax (361) 771-3452**

**Installation Contract**

**Installation Prices: Include appropriate trash and pump tank sizes.**

- \_\_\_ 600 gpd Norweco Aerobic Unit
- \_\_\_ 750 gpd Norweco Aerobic Unit
- \_\_\_ 1000 gpd Norweco Aerobic Unit
- \_\_\_ 1500 gpd Norweco Aerobic Unit

**Site evaluation / Design / Permit: Total \_\_\_\_\_ (Good for 60 days)**

- **This is a dry bid only.** In the event the job site is not accessible due to the weather conditions, there will be an additional charge to mud the system in (either use of track hoe to dig and set tanks or use of mats to drive truck in). Additional amount charged is subject to severity of location.
- The above prices are based on the home having one stub out and the tanks being located within 15' of the stub out. If there is more than one stub out, there will be an additional charge per stub out to connect the pipe. In the event of multiple stub outs and the stub out being positioned such as to require the installation of a lift station, there will be additional charges.
- An additional charge of \$250.00 for Risers will be added if stub outs are more than 24"
- **Owner's electrician is responsible for bringing 30amp 110 circuit (for 600 gpd only) within 5' of stub out.** Hurt's will provide 15' of electrical, however extra wire and conduit will be an additional charge.
- **Excess dirt will be left stockpiled on job site.**
- **Hurt's will not responsible for damaging any unmarked underground lines.**
- **Homeowner or Builder** is responsible for water supply to fill tanks, as well as the removal and/or replacement of fences or structures.
- **Hurt's not responsible for back filling around tanks after dirt settles.** One load of sand provided by Hurt's to be used for 4" pad under tanks and filling around 4" pipe from house.
- **Payment in full required day of installation. Contract is with Hurt's and homeowner. If payment is coming from the builder, the homeowner is responsible for making sure Hurt's receives that payment.**  
Visa / MasterCard / accepted at Hurt's office only. If used, there will be an additional charge.
