**NOTICE TO OWNER/OPERATOR OF AN AEROBIC TREATMENT UNIT**

Chapter 285.7 of the TCEQ regulations requires a maintenance contract for an on-site sewage facility utilizing an aerobic treatment unit. A copy of the signed maintenance contract between the property owner and the approved maintenance company shall be provided to the permitting authority (Wharton County). The initial maintenance contract must be valid for a minimum of two years.

After the initial two-year contract, on-going maintenance is required by either a licensed maintenance provider or a homeowner who has met the requirements to perform maintenance on their own system. The maintenance contract after the initial two-year period is not required to be with the original maintenance provider. **The owner of each aerobic unit shall continuously maintain a signed written contract with a valid maintenance company and shall submit a copy of the contract to the permitting authority at least 30 days prior to expiration of the previous contract or submit a contract agreement with Wharton County showing the homeowner will be performing maintenance on their own unit.** If the property owner or maintenance provider desires to discontinue the provisions of the maintenance contract, the maintenance provider shall notify, in writing, the permitting authority at least 30 days prior to the date service will cease. If a maintenance provider discontinues business, the property owner shall within 30 days of the termination date, contract with another approved maintenance provider and provide the permitting authority with a copy of the newly signed maintenance contract.

I understand that as the property owner of an OSSF system consisting of an aerobic treatment unit I am required to have in force an on-going maintenance contract for the life of my system. Should I fail to have a contract in place, I am aware I am in violation of the Order Adopting Rules of Wharton County, Texas for On-Site Sewage Facilities, Health and Safety Code 341.014, 366.0515 and Texas Administrative Code, 30 TAC 285.7. Failure to have a current maintenance contract in effect will cause the permit issued for said system to be considered void and a complaint to be issued in the Justice of the Peace Court.

This initial two year service contract for the Singulair Bio-Kinetic wastewater treatment system located at the site described above is intended to enable the owner to economically obtain regular service inspections for the Singulair unit, as well as non-scheduled or special service that may be required by a qualified technician. When this contract is in force, the owner will not be charged for any routine service labor. Under the terms of this service agreement, a technician will regularly inspect, test, and report the plant at four month intervals. The site will be visited following each special owner service request within a 48-hour period. The contract shall remain in effect for a period of two years, as specified in the effective and expiration dates listed above. All components of the Singulair unit are covered for a full two years warranty as determined by the dates above. The components include: concrete tanks, aerator, discharge pump, all electrical components installed as part of the system, filter / chlorination assembly, sprinkler heads, and piping. This service contract does not include the pipe from the structure to the tanks or any necessary sludge pumping that may need to occur. It shall also be understood that the homeowner is responsible for maintaining the chlorine in the system. The Texas Commission on Environmental Quality rules requires a service policy to be in effect at all times or the on-site sewage facility permit is considered void. All commercial systems will have a BOD and TSS test performed annually. Additional charges will be billed to the owner for the BOD and TSS test. The homeowner agrees to provide Hurt's Wastewater Management Ltd. with all gate combinations, keys, etc. to gain access to the system for the purpose of conducting routine inspections or service calls and to immediately notify with any changes and provide the new combinations or keys.

VIOLATION OF WARRANTY includes shutting off the electric current to the system for more than twenty-four hours, disconnecting the alarm system, restricting ventilation to the aerator, overloading the system above its rated capacity, or introducing excessive amounts of harmful matter into the system, or any other form of unusual abuse.

THE COUNTY OF WHARTON  
STATE OF TEXAS

**AFFIDAVIT**

According to Texas Commission on Environmental Quality Rules for On-Site Sewage Facilities (OSSFs), this document is filed in the Deed Records of Wharton County, Texas.

I

The Texas Health and Safety Code, Chapter 366 authorizes the Texas Commission on Environmental Quality (commission) to regulate on-site sewage facilities (OSSFs). Additionally, the Texas Water Code (TWC), §5.012 and §5.013, gives the commission primary responsibility for implementing the laws of the State of Texas relating to water and adopting rules necessary to carry out its powers and duties under the TWC. The commission, under the authority of the TWC and the Texas Health and Safety Code, requires owners to provide notice to the public that certain types of OSSFs are located on specific pieces of property. To achieve this notice, the commission requires a recorded affidavit. Additionally, the owner must provide proof of the recording to the OSSF permitting authority. This recorded affidavit is not any presentation or warranty by the commission of the suitability of this OSSF, nor does it constitute any guarantee by the commission that the appropriate OSSF was installed.

II

An OSSF requiring a maintenance contract, according to 30 Texas Administrative Code §285.91(12) will be installed on the property described as (insert legal description):

The property is owned by: \_\_\_\_\_  
Printed name(s)

This OSSF shall be covered by a continuous maintenance policy for the first two years. After the initial two year service policy, the owner of an aerobic treatment system shall obtain a maintenance contract within 30 days of expiration of said policy. Upon sale or transfer of the above-described property, the permit for the OSSF shall be transferred to the buyer or new owner. A copy of the planning materials for the OSSF may be obtained from Wharton County Permit & Inspection Dept.

WITNESS MY/OUR HAND(S) ON THIS \_\_\_\_\_ DAY OF \_\_\_\_\_, 20\_\_\_\_\_.

**(800) 841-3447- Fax (361) 771-3452**

**Installation Contract**

**Installation Prices: Include appropriate trash and pump tank sizes.**

- \_\_\_ 600 gpd Norweco Aerobic Unit
- \_\_\_ 750 gpd Norweco Aerobic Unit
- \_\_\_ 1000 gpd Norweco Aerobic Unit
- \_\_\_ 1500 gpd Norweco Aerobic Unit

**Site evaluation / Design / Permit: Total \_\_\_\_\_ (Good for 60 days)**

- **This is a dry bid only.** In the event the job site is not accessible due to the weather conditions, there will be an additional charge to mud the system in (either use of track hoe to dig and set tanks or use of mats to drive truck in). Additional amount charged is subject to severity of location.
- The above prices are based on the home having one stub out and the tanks being located within 15' of the stub out. If there is more than one stub out, there will be an additional charge per stub out to connect the pipe. In the event of multiple stub outs and the stub out being positioned such as to require the installation of a lift station, there will be additional charges.
- An additional charge of \$250.00 for Risers will be added if stub outs are more than 24"
- **Owner's electrician is responsible for bringing 30amp 110 circuit (for 600 gpd only) within 5' of stub out.** Hurt's will provide 15' of electrical, however extra wire and conduit will be an additional charge.
- **Excess dirt will be left stockpiled on job site.**
- **Hurt's will not responsible for damaging any unmarked underground lines.**
- **Homeowner or Builder** is responsible for water supply to fill tanks, as well as the removal and/or replacement of fences or structures.
- **Hurt's not responsible for back filling around tanks after dirt settles.** One load of sand provided by Hurt's to be used for 4" pad under tanks and filling around 4" pipe from house.
- **Payment in full required day of installation. Contract is with Hurt's and homeowner. If payment is coming from the builder, the homeowner is responsible for making sure Hurt's receives that payment.**  
Visa / MasterCard / accepted at Hurt's office only. If used, there will be an additional charge.
